Lately I've been acting crazy
Feel low and I miss you
Had you and I left you
Lord knows, I never ment to

I remember, tudududu
The first picture

I remember, tudududu
The first picture

One million different shadows
Where we've been around the willows
On my pillow is
As I remember this
One tear
For every meadow

I remember
The first picture

I remember
The first picture

Interlude

I remember
The first picture

T remember
The first picture
