Ha Ha Ha Ha (Na na niii)
Ha Ha Ha Haaaaa (N-dubz Nivo)
Ha Haaaaa
Ha Ha
Ha Ha Ha Ha (Hey Baby)
Ha Ha Ha Haaaaa
Ha Haaaaa

Yo i don't even know you and I want to kick you out the door
Why you sticking on me like chewing gum on the floor
Might be a little rich but I weren't before
Your name never stops coming up my on my telephone
I'm not saying that we can't **** around together
But stop thinking that we're going to be together forever
You know your so so pretty
You could have any man that you want like them girls in sex in the city
Everywhere I go someone's always right behind me
She go round the world and back just to try and find me
I ain't gonna lie your suttin else in the bed but I like you better when you give me head
Matter of fact leave now
I'm sorry lady (I'm sorry)
But if you carry on someone's gonna have a baby
Then your gonna be able to take every little penny they pay meee, never

Let me be
Let me be
Let me be (Ha Ha Ha Haaaaa)
Everywhere I go someone's always following me
Densensy let me be
I thike it's cause she always see's me on the TV
That's the reason she likes me

Yep that's the reason you like me
That's the reason
Nivo (RAP in Greek)

Let me be
Let me be
Let me be (Ha Ha Ha Haaaa)
Everywhere I go someone's always following me
Densensy let me be
I think it's cause she always see's me on the TV
That's the reason she likes me
Yep that's the reason you like me
Yo that's the reason

So many fakes pretending to be your friend
But they won't be around as soon as the **** ends
But for now their following everywhere that we go
In your own words make sure that tell em Nivo
I keep trying to tell you
All I wanted was a little bit of space
I feel surrounded, you gotta let me go

Let me be
Let me be (Ha Ha Ha Haaaa)
Everywhere I go someone's always following me
Densensy let me be
I think it's cause she always see's me on the TV
That's the reason
Let me be
Let me be (Ha Ha Ha Haaaa)
Everywhere I go someone's always following me
Densensy let me be
I think it's cause she always see's me on the TV
That's the reason she likes me
That's the reason you like me
That's the reason
