Slash gash terror whore
I like you better on the floor
Sock it to me ultra hot
Danger! Danger! On the spot
On the bed, give me head
Make you scream, "Candy cream"
Scene sluts like it super rough
That's the way they like to fuck
I like to twirk, I like to hurt
Bitch don't make me fucking work
I'll lick it up, I'll suck it up
Now get on the floor, let's fuck it up
Now make your move into my room
And I'll whip out my Dr.Doom
Oh, what the fuck
Bitch just shut up and suck

Chorus:

X2 Let's rock our bodies in time into the beat
And you can feel it as we turn up the heat
I need to feel myself inside you so deep

Chorus

Post Chorus:

X2 Uh Uh I Like It Rough
Uh Uh I'll Give It Tough
Uh Uh I'll Make You Lust
Uh Uh I'll Make You Bust

X2 Let's start a riot
Let's start a riot

It's like a porno flick
I just can't stop this hit
I'm poppin' some explicit shit
I'm pure triple x
Redefine ultra sex
Even your girlfriend says,

"He's the best!"
I'm just a naturalistic
Super stylistic
Fashion addicted
Glamour inflicted
Text me nudes from your sidekick
"Like oh my god Becky, did you see his dick?"

There's blood on the dance floor
Will bring it once more
Can't stop until we drop
Uh Huh
Can't stop until we pop
There's blood on the dance floor
Will bring it once more
Can't stop until we drop
Uh huh, can't stop until we pop
