Keep talkin' shit  
I'll give you fat lip  
Take a chain saw  
Rip it down raw  
Get me pissed, don't fuck with this  
I love it when I'm dangerous  
Coming like a freight train  
Painting walls with your brains

You testify, I'll justify  
You testify, I'll justify

So much to take  
Before I start to break  
Rattle my cage  
Stir up my rage  
Try and trip, with a dis  
Your ignorance is my sweet bliss  
Seal it with the lovely kiss  
Serve me like a fucking dish

With our eyes wide open  
Our fists closed shut  
Push us to our limit  
Or we will have to fuck you up

(Chorus)

So rip it up  
Tear it down  
Smash it up  
Burn it down  
We've lose control of ourselves  
Oh woah, oh no

Forget the risk, take the fall  
What you want is worth it all  
They can push you to the edge, but it's worth it in the?  
end  
Numb the pain, let it go  
Brace yourself, lose control

I do what I want  
And I mean what I say  
You've said your peace, now stay the fuck away  
I love my life the way it is  
And now you're gone  
It's none of your business.  
Hate if you will  
It's all good  
You think you're king  
You've got shit to prove  
You won't corner me  
Can't destroy me  
Cage me  
Contain me  
I'll still break free

Irony and reality, let's face the fact  
I've had enough  
Without fighting back  
Monopolize your world  
To hate the unknown  
You can't justify, and I won't conform  
You think you have it all  
But not my soul  
I'm taking a stand  
I'm losing control  
Minds blank emotions  
A Social disease  
Your hate produced  
A whole other breed

With our eyes wide open  
Our fists closed shut  
Push us to our limit  
Or we will have to fuck you up

(Chorus)

So rip it up  
Tear it down  
Smash it up  
Burn it down  
We've lost control of ourselves  
Oh oh oh no

Forget the risk, take the fall  
What you want is worth it all  
They may push you to the edge, but it's worth it in the?  
end  
Numb the pain, let it go

Brace yourself, lose control  
Burn it down  
Burn it down  
Burn it down  
Burn it down!

There's a trigger that goes off  
A feeling that just snaps  
When your pushed to a corner  
And you gotta fight back  
Find your inner fucking strength  
Motivated by there hate  
Pull it out when in doubt  
An just not give a fuck  
Till you break em and they fall  
See there pity as the crawl  
Cause you're tired and your weak  
From those nights of restless sleep  
When you feel like giving up  
When you feel like throwing up  
When you had it up to here  
When you want to disappear  
What!

Keep talking shit  
I'll give you a fat lip  
Take a chainsaw  
Rip it down raw  
Take a chainsaw  
And rip it down raw!

(Chorus)

So rip it up  
Tear it down  
Smash it up  
Burn it down  
We've lost control of ourselves  
Oh oh oh no

Forget the risk, take the fall  
What you want is worth it all  
They may push you to the edge, but it's worth it in the?  
end  
Numb the pain, let it go  
Brace yourself, lose control

Don't hold back  
Let it go  
Rise against  
Lose control

Numb the pain  
Let it flow  
Brace yourself  
Lose control
