(I can feel you...)

I can feel you
Crawling inside my mind
Taking control of this night vision infra red
I prefer clear eyes instead

Am I insane, what have I done?
Cause my hands will not lie to me
Angel of shame, come from above
And take me away from this place

The knife is driving
Deep inside your body
Taking all life
Of this night vision infra red
I prefer clear eyes instead

Am I insane, what have I done?
Cause my hands will not lie to me
Angel of shame, come from above
And take me away from this place

Can't this go back to the old ways?
Before all of these head controlling mind games
Cutting, killing, pawning
I can't believe so why can't I be free?

Go back
Save yourself
I don't believe so why can't I be free?
