I see the engines going southbound
With the parade called jealous eyes
All they life for is to be free from all that's red
Call it saving lies, call it anything you'd like

Let's start to solve this mess I'm in
It's gone on for far too...

I see the engines going southbound
With the parade called jealous eyes
All they live for is to be free from all that's red
Call it saving lies, call it anything you'd like

Let's start to solve this mess I'm in
It's gone on for far too long...
Forgive me,
I never meant to make a scene

I wanna be stronger than oceans,
I wanna lift mountains high,
I wanna put back the meaning in our names
I wanna move faster than time

Let's start to solve this mess I'm in
It's gone on for far too long...
Forgive me,
I never meant to make a scene

The holiday ends, I feel alive again...
