"The Singing Sea"

The singing sea
The talking trees
Are Silent in a noisy way

The stars are bright
But give no light
The world spins backward everyday

A rainbow rat
A checkered cat
Go tail in tail around the road
The mouse is pleased
The moon is cheese
The sun is shining hot and cold

A golden bird
Today I heard
Sitting upon a siver branch
His little song was very long
Which made me sad and start to laugh

My sister he
My brother she
But there is only me in the family
When I grow up
I?ll go down
The river to the Singing Sea
