(Go, go)  
(Yeah, yeah, yeah, yeah)

Party on and on and on, all night

We come 2 move the crowd  
Shout it out loud  
Peace around the way  
Gonna make you proud  
N-Tyce in the Monor  
Bout ready to party  
We don't cause trouble  
We don't bother nobody

WE just rock on  
Champagne popping  
Mic's on fire  
And the DJs rockin  
Hey babe  
Betta move to this  
N-Tyce got the flavor  
With a funky twist

(BRIDGE)  
The first night of forever  
And we're all gonna be much betta  
Come what may

(CHORUS x2)  
N-Tyce come to party (yeah, yeah)  
We all come to party (yeah, yeah)  
Come on everybody (yeah, yeah)  
Are we gonna party (Oh yeah)

Party on and on and on, all night

Lips sure looking fine  
To the red wine  
A pound for a penny  
And a dollar for a dime  
We betta slide  
We got that boogie lock down

Dance to the flavor  
With a funky sound

This is how we do it on the London side  
Rocking to and fro  
On the UK vibe  
Party people betttta feel the groove  
We about to party gonna make you move

(BRIDGE)  
(CHORUS x2)

Ooh, la-la-la-la-la-la-la, bring the old school  
Bring the old school  
This is how we do it on the UK side  
Bring the old school

(Ooh, lou-e-lou-e-loud)

Feels good  
Feels good  
Feels good  
Feelin good  
(x2)

Say yeah yeah (yeah, yeah)
