Yo shit is real dog, you know?
Stay out the web, cuz once you get caught up in the
web
That's it, you know?
They get you they got you good
Yo do the knowledge, take notice, stay focused
Shit is real, and it's real hard out there, for a black
nigga

[Verse 1]

Ayo the way they doin me I can't stand it
Branded as a social bandit, but I'm a man and I'ma
handle it
I'm not the first and I won't be the last
Just look how they did Pac and Tyson in the past
Yo at times, sometimes, I feel like I'm cursed
Because my life done went from bad to worse
Through all the stressful moments and all of the worry
I'ma still remain the same Keith Murray
Because I know deep in my heart God is on my side
If I gotta do my time, then I'ma do my time
They label you wrong, when you try to do right
And then they wonder why a con is so uptight
I'm just livin proof, of when you livin the truth
I been goin through bad times, since I was a youth
Now look, they got me locked in jail
People wonderin will I prevail or fail
But only time will tell

My mind, just now and then
Lookin down the corridors and wonders what might
have been
It was a bad day

[Verse 2]

Yo, I wouldn't even stand here and lie to you, yeah it's
true
All the shit that you hear about I'm goin through
And we good people at heart Jesus knows that we try
So I wonder why we get a break no time
My little sister just died, and the judge let me fry

And now I gotta kiss my lil daughter goodbye
All the pressure, make me wanna grab the tech off the
dresser
But understand that don't make you a man
So I address the, situation best way that I can
With a letter to the senator, from the lyrical political
prisoner
That the system label a sinister
In jail while I confess my sins to the minister
It's enough to make a nigga go A-Wall
But for now I leave it in the hands of the Lord

It's a real situation we all go through
You know, unfortunately, Today was a bad day
Word, recognize, I'm no different from you
You no different from me, you know
It was a bad day

[Verse 3]

No slack for the rapper, no rest for the worried
Now everybody in the world heard of Keith Murray
When the hype dies down and reality sets in
We all goin through the same thing for a friend
And it aint nothin good in the hood
Your own people will stab you in the back
Set you up and get you good
From the start, I came from the heart
Giuliani got the nerve to oppose the million youth
march
They confiscated my passport, though I might of
boated
I'm young black and dangerous that's why I got
railroaded
And magazines, as if it's been misquoted, let it be
noted
They can't break me to the streets I'm forever devoted

Yo

I'm tellin you man, this is life, you gotta live this life
Would you fall, would you make it, you never know
Today was a bad day
Livin proof of the truth, locked the fuck up, on some
bullshit
You know, you livin, right or wrong
It was a bad day
But yo keep your shit tight, cuz when the get you they
get you good
I had a bad day
Yeah, I understand you had a bad day
