[Pharrell]

I like you  
You so special

Just close your eyes let me hypnotize you  
I can make your storm feel sky blue  
Girl when you lost you know I'll find you,  
If I'm not beside you I'm behind you  
Imagine you, on the beach in your laws,  
You feel the breeze because you're clothes off  
Your inhibitions you got nothing to hide  
And then help 'em rise don't you wanna ride

Touch a girl, touch a girl, touch a girl (ahhh)  
Touch a girl, touch a girl, touch a girl (ahhh)  
Touch a girl, touch a girl, touch a girl (ahhh)  
Touch a girl

I'm behind you,  
Just close your eyes let me hypnotize you  
I can make your storm feel sky blue  
Girl when you lost you know I'll find you  
If I'm not beside you I'm inside you  
I'm your doctor, this is you therapy  
Your money's no good just take care of me  
I found a issue, you my soldier type  
But all that can change lets get loose tonight

Touch a girl, touch a girl, touch a girl (ahhh)  
Touch a girl, touch a girl, touch a girl (ahhh)  
Touch a girl, touch a girl, touch a girl (ahhh)  
Touch a girl

I'm behind you  
Just close your eyes let me hypnotize you  
I can make your storm feel sky blue  
Girl when you lost you know I'll find you  
If I'm not beside you I'm inside you

You're a dream, inception you my queen  
Wait babe let me paint that wall  
Change the background take that off

In your eyes I could see you a winner  
I know size(?) stop lying like Lior  
You could stay but thereâ€™ d be no me  
But if you come and set you free

To the left, to the right  
To the left, to the right

Go on and touch it girl, go on and touch it girl  
Go on and touch it girl, go on and touch it girl

Let me get close let me hypnotise you,  
I can make your storm feel sky blue,  
Girl if you lost you know I find you  
If im not beside you I m behind you  
Just close your eyes let me hypnotize you,  
I can make your storm feel sky blue  
Girl when you lost you know I find you  
If im not beside you im inside you

Twenties, fifties, fives, tens, twenties, fifties, fives,  
tens,  
Twenties, fifties, fives, tens, twenties, fifties, fives,  
tens,  
Twenties, fifties, fives, tens, twenties, fifties, fives,  
tens,

Just close your eyes let me hypnotize you  
I can make your storm feel sky blue  
Girl when you lost you know I find you  
If I m not beside you I m inside you

Touch a girl, touch a girl, touch a girl (ahhh)  
Touch a girl, touch a girl, touch a girl (ahhh)
