Hey,  
Its me your sub-conscious speaking  
Turn me up yo  
Close your eyes  
And now that I got you under my concentration  
Lets pledge alligience  
We are rare,  
We are the strong,  
We are the meek,  
We're just not humble about it  
We been here since the beginning of time  
And all wonders of the world  
In which we live in are products of our imagination  
[Intro Lyrics On ]  
We are the dreamers  
And as long as we dream  
We will never die  
You know why?  
Cause no one ever really dies...
