4 in the morning she appeared there to me
Said she had the secret to life
She pointed to my heart
And said that you believe
Felt my neck and then opened my eyes

I've seen the light
I've seen the light, you're the one girl
And when it hit me it felt like lightning
And when it hit me I wasn't frightened
Cause I've seen the light

Things will some change you will see you will see
The life will cheeks away the dark
She said you'll be oke if you listen to me
All the superstars are burning now

But I've seen the light
I've seen the light you're the one girl
And when it hit me it felt like lightning
And when it hit me I wasn't frightened
Cause I've seen the light

Last lee I dreamed something here knocked believe
The desert was hot the air was dry
She gave me instructions to play my magic keys
And magic trees start falling from the sky

I've seen the light
I've seen the light, you're the one girl
And when it hit me it felt like lightning
And when it hit me I wasn't frightened
Cause I've seen the light

(Saxophone)

Hoooh

(Intro inside of clouds)

I can smell it when I go outside (outside)
The rain it just poors

It gives us peace then all in the town is quiete (outside)
That's what's rain's for
All the kids see rain and scream no no
Run off the bus and they would just stay in
Me I love how rain fills the potholes
Me and myself well that's what we played in
Ever wondered exactly where the sun goes?
There it'd go and did something shaded
Sun gives light cause it is the one though
Rain gives life cause it is amazing

Go inside of clouds (go inside of clouds)
That's how bricks in the sky, proves there's life
