I want you  
Do you want me too?  
I have one question  
Can I help you?  
Now watch me  
What I do  
Now thank you for coming through my Drive-Thru  
UH!

When you're haunted by the demons that'll never let  
you rest  
Not shy in front of crowds but shy in front of just one  
guest  
Not dumb enough to win at the game,  
but not smart enough to dumb it down and take it away  
It's black and white, like space at night  
If you wanna be like us you better work every night

One question, what's your impression?  
Now with a walk like mine I'm a big presence  
So make your move real slow, my mind's a weapon  
I said just move in slow no second guessing  
I find your approach so adolescent  
I may look young but your game is prepubescent  
So watch my feet I'm known for my quick steppin'  
You wanna keep up, gotta show me somethin'

Look at all the leaders hanging in the playground  
Always beatin' up the weaker ones  
(I'm going after you)  
The answer to the question that I don't understand

Is a word that I have never..  
(I'm going after you)  
You think your happiness is watching TV all night long  
You need the job of dealing over people in this song  
I am here to change your goal  
I regret everything I've done

You wonder oh how do I inspire  
Got the world spinning 'round inside my palm

Don't hate me you know they got you wired  
You better show us how you can be all grown up  
We all wanna dance  
Just wanna dance, dance  
(repeat)

It's summer in the city (x2)  
Your life's a game, I'll dance with you  
Don't waste your time with one or two  
The time is right the summer night  
You fall in love at every light

You wonder oh how do I inspire  
Got the world spinning 'round inside my palm  
Don't hate me you know they got you wired  
You better show us how you can be all grown up  
We all wanna dance  
Just wanna dance, dance  
(repeat)
