Are the ladies on the floor?  
Damn right!  
I hate the fact you know!  
I hate the fact you know !  
Why?  
I hate the fact you know!  
That everywhere you go  
You recognize your teens,  
You recognize the clan.

Chorus:  
Everybody,body, body, don't know where to go!  
It's such a commotion right here on the floor!  
Dance!  
You're spinning your body.....  
Well that's one detail that's killing me,  
I wanna know!  
Why?  
You just know it, don't cha you know it,don't cha?  
No trick, I got nothing on you!  
You gotta...  
You just know it, don't cha you know it, don't cha?  
Cause everything just comes to you!

Hey! Cut it out!  
Where the hell you've been?  
Oh, where the hell you've been?  
Where the hell you've been?  
What you got to self in?  
Baby, feel! It's trouble!  
Can you squeeze me in?

Chorus:  
Everybody,body, body, don't know where to go!  
It's such a commotion right here on the floor!  
You're spinning your body.....  
Well that's one detail that's killing me,  
I wanna know!  
What?  
You just know it, don't cha you know it, don't cha?  
No trick, I got nothing on you!  
You gotta...

You just know it, don't cha you know it, don't cha?

Cause everything just comes to you!

You kissed me, I kissed her, she kissed you, you

kissed me.

You kissed me, I kissed her, she kissed you...

What are you drinking, girl?

You kissed me, You kissed me, I kissed her...

Come on! You're fakeing!

You kissed me, I kissed her, she kissed you, you

kissed me!

Hold up!

That's guy is up, and I'm trying to hey!

A hole in the wall and my favorite drink

But a hole in something may tear up the frame

Now, who came here to party?

Get it girl, we gonna get wild!

Watch that dance, I love you smile,

Animal ass, show you get wild,

But I love how you move your body!

Chorus:

Everybody, body, body, don't know where to go!

It's such a commotion right here on the floor!

You're spinning your body.....

Well that's one detail that's killing me,

I wanna know!

What?

You just know it, don't cha you know it, don't cha?

No trick, I got nothing on you!

You gotta...

You just know it, don't cha you know it, don't cha?

Cause everything comes to you!
