Babe  
For what I'm about to ask  
Don't be ashamed  
I just love you girl  
Babe  
As time will surely pass  
Love shows it flame  
In my fuck you world

Relax girl  
Sip some of my slurpee  
You don't have to lie to me  
It's fly to me  
And this way  
You can have your privacy  
And at the same time I can see

[2x]  
Look  
I just want to tape you  
All night  
Yeah

Babe, please don't let this make you think my love has  
swayed  
No way ok  
Baby girl  
This is not her idea  
It's mine single handedly  
It's just my fantasy  
There's only one and when you're done  
It's ours just for fun  
And then please give me some  
Listen we'll call her gold and you'll be platinum  
I just want to see you come (out)

[4x]  
Look  
I just want to tape you  
All night  
Yeah

[2x]

Nah baby don't worry about your makeup  
I promise I won't be jealous and break up  
Not to patronize and sound fake but  
If this is a dream I don't want to wake up

Turn on the purple light  
Begin flashing  
By removing your fashion  
And start tongue lashing  
Now girl kiss her boobs  
And you kiss her boobs too  
An let your finger dash in  
Lights, camera, action

Look  
I just want to tape you  
All night  
Yeah  
[Fades Out]
