Unzip your skirt
Take off your blouse
I hope your toes are painted
Cos your gone dance in your undies all over your house
When your eyes are closed I hope Im the man you see
Cos if not, I want you too know tonight I plan to be
Is this for me?

Slow motion like a dream but real time is what it seems
I love the way she dance
Slow motion like a dream but real time is what it seems
I love the way she dance see I
Love the way she dance
Girl I love the way you dance, yeah

I am in your aquarium
Are you are mermaid or something
Is it possible to marry one?
Big tits, a fat ass and turquoise hair
When your eyes are closed I hope Im the man you see
Cos if not, I want you too know tonight I plan to be
Is this for me?

Slow motion like a dream but real time is what it seems
I love the way she dance
Slow motion like a dream but real time is what it seems
I love the way she dance see I
Love the way she dance
Girl I love the way you dance, and

Calling all cars please arrest her
She's a criminal in my dreams
She just stole my heart
Its a A.P.B.

Slow motion like a dream but real time is what it seems
I love the way she dance
Slow motion like a dream but real time is what it seems
I love the way she dance see I
Love the way she dance
Girl I love the way you dance, and

Kiss you, kissing me, it's euphoria,
Mission 2 and mission 3 it's kissing 4 of ya
When sparks fly,
I think that's love
When sparks fly,
Don't you think?
Close your eyes hold my hand concentration
No destination just dance on constellations
When sparks fly,
When sparks fly,
I think that's love
When sparks fly,
When sparks fly,
Don't you think?

Excuse me but girl come with me,
See you and I can be each others company
But can't you see
When sparks fly,
When sparks fly,
I think that's love
When sparks fly,
When sparks fly,
Don't you think?
