[Verse 1:]

At first it started with the eyes I'm like un uh no way yo
sista can't
Know. and so the tension slowly build you got them
slanted eyes that kills
All systems go. then you kissed my cheek my knees get
weak my heart just
Skipped a beat so I just froze. then you touch me there I
knew you
Wouldn't girl you touched me good I'm like uh oh.

[Chorus:]

You know what, know what, know what, you know what?
I'm sorry, sorry,
Sorry, sorry. it hurts me, it hurts you, it hurts me, what
we do but so
Good, so good, so good, so good.

[Verse 2:]

Let me show you where you went wrong you know that
our sex took us to
And fro. then you had the nerve to say you're hurt and
fix your mouth to
Blame the cuervo. then in me could find a compromise
and I'm just like
You know what you chose. I don't want to say it again
but here it goes
Fuck it we're just friends now where's my clothes.

[Chorus:]

You know what, know what, know what, you know what?
I'm sorry, sorry,
Sorry, sorry. it hurts me, it hurts you, it hurts me what
we do but so
Good, so good, so good, so good.

[Verse 3:]

What am I gone do when I can't get anymore I'd rather
not no oh. cause
If you wanna know the truth nobody made me cum like
you I just roll
Over. I can't let my mind think of you I hit that dial and

get you on
The phone. cause baby it's just not the physical I get
with you I'm
Addicted to your moan.

[Chorus:]
You know what, know what, know what, you know what?
I'm sorry, sorry,
Sorry, sorry. it hurts me, it hurts you, it hurts me what
we do but so
Good, so good, so good, so good.

The rumors
The rumors
The rumors

[Bridge:]
This aint right (you know it's so) you know I want it, (you
know it's so)
You know I want it. (you know it's so, you know it) girl
this aint right,
(You know it too) you know I want it, (you know it too)
you know I want
it. (I'm mad at you)

You try keep your feelings inside the ropes but then
you weigh me down
When you see me like hey hello. now you know we
never cared of a public
Place I see it in your face and those were magnific
times don't go, how
We gone stop?

[Chorus:]
You know what, know what, know what, you know what?
I'm sorry, sorry,
Sorry, sorry. it hurts me, it hurts you, it hurts me what
we do but so
Good, so good, so good, so good.

You're friendship means the most to me, yeah ohhh.
you're friendship
Means the most to me, yeah ohhh
