

## Naamah "Eternal Fear"

Visit "[Eternal Fear](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I don't see Your face  
I can't hear your voice  
Why did you leave me  
In this horrible world?  
I'm not dead I'm not alive

Who am I now, My Lord?  
Why don't You show me Your face?  
I want to see Your countenance

What is my name now?  
I'm different than me before  
You have brought me the power  
The power of eternity...

I'm called upon to expiate the guilt  
I rise to make retributions by kill  
On them who killed my primal faith  
The immortal beast has been made
