Stars of our stars
Dreams of my dreams
You come to me
Singing 'The Stars Of Our Stars'

The stars of our stars
Come up the first day
The moon did set, the sun comes up
And all the stars disappear

Stars of our stars
Dreams of my dreams
You come to me
Dancing to 'The Stars Of Our Stars'

The stars of our stars
Come up the second day
The moon did set, the sun comes up
And all the stars disappear

Times at night, in the spill of light
You catch a glimpse
You make a start with an eager heart
But it always slips
And then everything shifts

The stars of our stars
Dreams of my dreams
You come to me
Trailing 'The Stars Of Our Stars'

The stars of our stars
Will come up the third day
The moon will set, the sun comes up
And all the stars, they disappear

Stars of our stars, stars of our stars
Stars of our stars, stars of our stars
Stars of our stars, stars of our stars
