"All New Dreams"

Visit "[All New Dreams](#)" on MotoLyrics.com

You're like a million dollar suit
On a man who's worth a penny
All right, we haven't met in so long,
Still I can't block the images
You burned into my mind

Back then you held the key to glory
Your secret's safe with me now show me...

Our hope's on you
You've got the strength of a thousand
Please pull us through(trough)
You've got the strength of a thousand
And I've built all new dreams on you

We are staring blind on the pursuit
Of some goals we can't accomplish
Damn lies (damn lies), sneaking in like an intruder.
Make us stop the hypocrisy and cut us down to size

We bend the truth to fut our stories
Please right our wrongs and guide us through this

Our hope's on you
You've got the strength of a thousand
Please pull us through(trough)
You've got the strength of a thousand
And I've built all new dreams on you

Back then you held the key to glory
Your secret's safe with me now show me...

Our hope's on you
You've got the strength of a thousand
Please pull us through(trough)
You've got the strength of a thousand
And I've built all new dreams on you
