Bend or Break, any time now you will change your state  
I must admit I admire your commitment  
Your devotion is unseen  
I just wonder if it's sane to turn down  
Every new opportunity  
Please note that you'll be giving in  
Chorus:  
Bend or Break  
Any time now you will change your state  
Did you really think that all your phony values were not  
fake?  
Bend or Break  
Let's start off with finding out when you're offended:  
When tradition leaves the scene  
I understand our past is your companion  
Holding on to security  
Please note that you'll be giving in  
Chorus  
And I know, you've been told that you should fight for  
What you stand for:  
This might come as a whole  
New fright you haven't planned  
So keep your options open  
Please note that you'll be giving in  
Please note that you'll be giving in  
Chorus
