"Blind Date"

Visit "[Blind Date](#)" on MotoLyrics.com

Silent your step is silent as you come near
You suit me perfectly

And violence you denounce violence so carefully
You can smell the fear

The sickness you own
Is getting scarier
So be my blind date
Suppress the good in me

License you have the license do what you please
Nice is not your word

And you're so utterly vicious and indiscreet
But I like your dirty game

Slowly internally you're destroying
Everything you touch
Brutal bold are your actions
Everything you are
