### "Faults & Failures"

I said it before, and I'll say it again  
Im not Rufio and you're certainly not Peter Pan  
Were no opponents in this war  
And what was it for? I just can't understand  
What's the point in taking garbage out of the can  
Don't wake those sleeping dogs no more  
I came clean with all my faults & failures I heard youve,  
too, changed your ways  
When I look back on all the misbehaviour  
I never thought that you could change  
The last time we met, softly said you were loud  
There must have been this furious rage in your head  
You wore the crown of the class clown proud  
How can I forget, seeing red when you vowed  
You felt regret and turned your life around  
I must admit I was wrong about that  
But it's so hard to set things straight  
- the wounds you made have never healed  
To hate I no longer relate  
I came clean  
With all my faults and failures  
Could you come clean  
With all your misbehaviour  
I said it before, and I'll say it again  
Im not Rufio and you're certainly not Peter
