I don't really fucking care  
I've heard it all before I swear  
I'm so sick of social games  
All your gossips so damn lame  
I don't really want to know  
What who did what with so and so  
Can't you see how shallow all these social games are  
Stop wasting my time  
I just wanna break some glass  
I just wanna kick your ass  
I'm not gonna stay relaxed  
Stop talking shit behind my back  
(chorus)  
Stop wasting my time (x4)  
Why don't you just shut your trap  
You're just so damn full of crap  
Everybody's talking shit  
I'm so sick of hearing it  
(chorus)
