Youre being used by the rich
Youre being used by the rich

In order for the ruling class to keep power
The lower class must be kept under control
They keep us uninformed and make it hard to survive
So we drown in apathy and don't question why

The rich are screwing us over
The rich are screwing us over

Youre being used by the rich
Youre being used by the rich

Take a few minutes from your idle amusement
Learn for yourself how the rich abuse us
Youre stuck in the middle of a silent war
Where the rich struggle to keep down the poor

The rich are screwing us over
The rich are screwing us over

A millionaire will count his money
While a million starve to death
And the majority will stay poor
Ãil we unite and have a class war!

Youre being used by the rich
Youre being used by the rich

Being greedy is a crime
Lets lock them up for being insane
Instead the dissenters are considered mad
For refusing to follow what the rich man says

The rich are screwing us over
The rich are screwing us over
