Cut up the banana, put it in the blender,
And shake it all up, shake it all up [x2]

You got a banana smoothie (banana smoothie)
You got a banana smoothie (banana smoothie)

Drink up, taste it, swallow it
Get up, get on top of it
Feels right, aloha and ohalo...

Stay straight, right now it is

Have faith, getting out of it
Feels right, aloha and ohalo...

Die high, bird is flying now
See straight, seems OK now
Feels right, aloha and ohalo

Cut up the banana, put it in the blender,
And shake it all up, shake it all up [x2]

Banana smoothie... *[repeat as the background sings the chorus]*
