If that's not love then what is?  
If that's not friendship then what is?  
If that's not music then what is?

We've got the music in our blood  
Magical seasons and then we're all done  
Magical feelin has begun  
Magical feelin has begun

Before you know it we are there  
On top of the world it seems  
I don't know who, why, or where  
But I can still hear the music  
If that's not love then what is?  
If that's not friendship then what is?  
If that not music then what is?

We've got the music in our blood  
Magical seasons and then were all done  
Magical feelin has begun  
Magical feelin has begun

Before you know it we are there  
On top of the world it seems  
I don't know who, why, or where

But I can still hear the music  
If that's not love then what is?  
If that's not friendship then what is?  
If that's not music then what is?  
If that's not music then what is?  
If that's not music then what is?  
If that's not music then what is?  
If that's not music then what is?  
If that's not music then what is?  
If that's not music then what is?
