What you now are seeking  
Hope to real life  
Don't give it till the weekend  
It will take weeks, months, years,  
It will take you your whole life

Cuz it's not a question of the convalescent time  
It's a thought that lives in the back of your mind  
It is a story told with many different endings  
Somehow it will always sound that same

It's like the dreams we chase these days,  
Well they all have patents pending, but  
None seem to hold your name,  
Your name, your name, your name

So we try to figure out why you never think of anything  
smaller than  
Galaxies  
While spend eons wondering what happened to our  
thundering  
It's gone
