"The Loving Songs"

Visit "[The Loving Songs](#)" on MotoLyrics.com

There's a song I hear every time you're near
That goes on and on inside my ear
It's a natural song for two, I'm singing with you

It's a melody just for you and me
And it's got the sweetest harmony
And as long as you want me to, I'm singing with you

La la la la la la
I'm singing my loving song
La la la la la la
I'm singing it all day long

Not a song that's going strong
On any music chart
Just a la la la la la la
Playing in my heart

It goes round and round with a special sound
That you hear wherever love is found
And loving you like I do, I'm singing with you

Nothing can go wrong when you've got a song
And there's someone else to sing along
And I hope I will live life through, singing with you

La la la la la la
I'm singing my loving song
La la la la la la
I'm singing it all day long

Not a song that's going strong
On any music chart
Just a la la la la la la
Playing in my heart

Just a la la la la la la
Playing in my heart
Just a la la la la la la
Playing in my heart
