In a world as changeable as skies above  
Where the eagle all too often overtakes the dove  
There is one thing in this life we can be certain of  
Your love, my love

Nation fights with nation, everyday somewhere  
But through every situation we will not despair  
For we know that our salvation is the gift we share  
Your love, my love

Lock me, desert me  
I'll get by love, now you're my love  
Nothing can hurt me, now I'm sure of your love

When our castles crumble and our dreams take flight  
And we sometimes find it hard to face the morning  
light  
There is one thing that will see us through the darkest  
night  
Your love, my love

I will never fear what fate may have in store  
For with every passing year, I love you more and more  
And as long as I'm alive, I will be living for  
Your love, my love

Lock me, desert me  
I'll get by love, now you're my love  
Nothing can hurt me  
Now, I'm sure of your love

In a world where peace and harmony are strange  
And whatever dreams our destiny may rearrange  
There is one thing on this earth that time will never  
change  
Your love, my love, your love, our love
