How does it feel to be a poser like you?
How does it feel to listen to limp bizkit?

Have you ever noticed that the word loser rhymes with
poser?
And you don't know the title of the first manowar album

Poser, you stand alone in the dark
Poser, I wonder why noah put you in the ark
And you don't know the difference between Metallica
and iron maiden
Poser, you have the t-shirt of Reload

I am a poser, and I listen to korn
But I am not a loser and I'm glad to be born

Even if you say that the word poser rhymes with loser
that doesn't mean I am...
Well maybe I am a loser but I am always a human
being!

Poser, you stand alone in the dark (I am just sleeping in
my bedroom)
Poser, I wonder why put you in the ark (because I smell
less than the cercopitecosaurus)
And you don't know the difference between
Bruce Dickinson and blaze bayley (I wash my teeth
every morning)
Poser, you like virtual XI (ehm, and then?)
