In the forest of metal wow, of the warrior of the sword
World of the warrior

The forest of steel, of the steel, steel, steel, metal,
iron, and all the heavy minerals,
In the forest of the minerals of metal we go to see the
source of all metal
And to be more metal than you
We are more metal because we know where's the iron
in the forest and the iron in the woods,
Because we are the Metal Rangers who keep the forest
alive,
What the hell am I saying! ?

We have the true heavy of the true metal of the steel of
the warriors
And all of the warriors of the true heavy metal, of the
true metal
And only we have the true heavy metal of the true
heavy metal of the warriors of steel
Of the war of steel of sword
