Lift down zero zero two twelve
This day, this day, go go

Lift down zero zero two twelve
This day, this day, go go

Lift down zero zero two twelve
This day, this day, go go

Lift down zero zero two twelve
This day, this day...

The sun is blazing like a madman
And the papers say it's gonna stay that way
And I know she didn't call cuz she's mad at me
I should react, but do I have to?

I'm landing on this day like the needle on the record
(Lift down zero zero two twelve)
Yes I'm landing on this day like the needle on the
record
(This day, this day...)

The cat comes walking into the room now
Oblivious to the dark talk of the TV
And now she sits down aimly quietly
She is not astonished in the least

When I'm landing on this day like the needle on the
record
Lift down zero zero two twelve

Yes I'm landing on this day like the needle on the
record
This day, this day, go go

I'm landing on this day like the needle on the record
Lift down zero zero two twelve

Yes I'm landing on this day like the needle on the
record
This day, this day, go go

My sister's boyfriend was down so lonely
Didn't feel a thing, until one day his own worries got
him bored
That's when he stood up before the end up, a movie
and left
The sun is blazing
And I'm landing on this day like the needle on the
record

Yes I'm landing on this day like the needle on the
record
I'm landing on this day like the needle on the record
I'm landing on this day like the needle on the record
Yes I'm landing on this day like the needle on the
record

Landing on this day

Lift down zero zero two twelve
This day, this day, go go

Lift down zero zero two twelve
This day, this day, go go

Lift down zero zero two twelve
This day, this day, go go

Lift down zero zero two twelve
This day, this day, go go

Lift down zero zero two twelve
This day, this day, go go
