When I wake up sometimes  
I may feel that I am alone  
But I know that you're here  
That's all I need to know

Chorus:

Because when I am out and down  
There's nothing you could do about it  
This is tough love, it's tough love  
It's tough love, it's tough love  
There's no place in this world where we could be  
together  
It's tough love (3x)

Some times I just sit and cry  
Cuz I can't be with you  
Because we're young and can't be  
And it's not fear  
We can't get to express our love  
Like other cuz it's tough love

Chorus

I'm gonna say good bye to you  
Cuz it seems we can't be it's hard letting you go but  
We can't be together if our  
Love is tough love,  
Remembering you is all that hurts

I feel like we're lost in the  
Universe and can never be found  
That! you should never ask why

Yeah yeah! oh oh
