"Get Outta My Head"

Visit "[Get Outta My Head](#)" on MotoLyrics.com

Someone please save us
Save us from our wicked little selves
We're bent on courageous, we're drifting
So it's hard for me to tell

I wanna make you mine
All of the time
I wanna be your referee
Your man

Get outta my head
Or into my bed
Get out of my head
Or into my bed

I had a dream about you last night
I had a dream about you last night

Yeah, we were contagious
We were both covered up with bees
Our thoughts are outrageous
The hippies, man, they ain't got nothing of me

I wanna make you mine
All of the time
I wanna be your referee
Your man

Get outta my head
Or into my bed
Get out of my head
Or into my bed

I had a dream about you last night
I had a dream about you last night
