INTRO & BREAK:

G

G I'm a little F# rocket ship,  
F I'll take you on a C little trip  
We'll G leave this planet F# far be-F-hind C

I'm a little tired of it,  
and you're a little weary  
I can tell, yeah yeah Eb-Bb-F-C-D-Eb-Bb-G-F#

Well, Eb I'm a little rocket ship  
And Bb you are Queen Andromeda  
of F all the stars, those with names  
and C those in clusters  
Eb You are unaccountedly  
Bb infinite, so can't you see that  
G I'm a little rocket F# ship  
BREAK

I'm a little rocket ship  
I'll take you on a little trip  
And leave this planet far behind

Do you suppose that they've been here?  
I don't know, but I've been there  
Do you wanna come along?

I'm a little rocket ship  
and you are crowned magnificent  
of all the stars, those with names  
and those in dingy drag bars  
They plead with you not to go  
to Pleiades or Scorpio  
and I'm a little rocket ship

REPEAT BREAK TO END
