My life is totally boring without you around
These days, they fade to another; I want you around
So I'd like to say
That I'm better off,
I'm happier this way...

But my life is totally empty without you around
Well my life is totally boring without you

Well I fell, but you fell much farther, I was envious
Around here, everyone loves you, cuz you are insane
So we started a band,
owe it all to our fans,
went somewhere near the top...
My life is totally empty without you around
Yeah my life is totally boring without you
