(ending: G)

You're a wild one  
Well I was once like you  
They couldn't tame you  
Kicked you out of the zoo

Drank all of that soda pop  
Red candy on your chin  
I gave ya something to slow you down  
Just sped you up instead

You're a wild one  
A wild one  
You're a wild one

A wild one  
You're a wild one  
Were you raised by wolves?  
Learned their dark secrets  
Under the light of the moon?

That's when the ??? comes  
To lock you in your chair  
So scream along at the top of your lungs  
Shout and shake your hair  
You're a wild one  
A wild one  
You're a wild one  
A wild one
