Show me heaven
That's what i need

You got something I need
I got something you want
Let?s put toghether no prejudice
I feel so alone

Waitin for so long
If you feel like, go
Don?t forget about me
Show me heaven, that?s what I need

You can drive my car
Never let you down
You can ride a star
If you make me crawl

Waitin for so long
If you feel like, go
Don?t forget about me
Show me heaven, that?s what I need

(repeat all lyric)

Chorus:

Show me heaven
That's what i need (5x)
