Didn't you know what and who I am?
Don't you fear me, don't you fear the reaper
I am your first and only love
I am the one to grant you flowers

Don't you fear me
Don't you fear the reaper
Don't you fear me
Don't you fear the reaper

Have you forgotten everything... ?
How could you,
How could you leave me be (alone)... ?
Have you condemned our sacred memories... ?

No one, but me
No one, but you
Graven in a shining bed -
Isn't a tremendous death?

Are you ready to be my lover?
Are you the one I know?
Are you ready to be my loss?
Are you the one I... slain?

Have you forgotten everything... ?
How could you,
How could you leave me be, alone... ?
Have you condemned this sacred memory... ?

Don't you fear me
Don't you fear the reaper
Don't you fear me
Don't you fear the reaper
