You can work without me
You can do it all in every way
Everything's alright

You should be happy
Don't be by yourself in any way
You won't resent me

Sixteen barrels of insects
Pour them all over my head
You can do it all except
Everyone is my favourite now

You're my favourite now
Everyone is my favourite

This is working nicely
You're looking good and doing okay
Nobody's uptight

You look so pretty
But don't be afraid 'cause it's okay
I'm on the dark side
