The man looks like a mover
He dances like he's got her
Hooked up inside the bathroom
Shes always his
You better sit down watch your mouth we always hear
Coz' we can fight, drive and kick you out we always
hear
Watch you mouth
Watch your mouth
You slip men all around her
You move and bump and grind her
But you look total fine when you catch our eye
We'll drive
(drive)
We'll fight
(fight)
Alive
The only way to spend the night..
You better sit down watch your mouth we always hear
Coz' we can fight, drive and kick you out we always
hear
Watch you mouth..
Waking up with black eyes
Must be out of our minds
Waking up with black eyes, we
Must be out of our..
Must be out of our minds
You better sit down watch your mouth we always hear
Coz' we can fight drive and kick you out we always hear
Watch your mouth (oh no)
Watch your mouth (oh no)
(oh no)
Oh no...
