

## Crackout "Way Too Long"

Visit "[Way Too Long](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I'm not a complicated soul  
There's just enough to me to get along  
You feel safer on the run  
But you're not really fooling anyone

I'll chase you  
I'll chase you

And everyone will soon belong  
And everyone will get along

You can't make me

Because you know you'll be alone  
If you go on treating us like you've done  
Start to feel your pain  
Should be good for you should be

And everyone will soon belong  
And everyone will get along  
Way too long, way too long it's been way too long  
But we're all here now

You can't make me  
Come on make me
