Iâ€™m from peace avenue, stretch boulevard, murder
row
Where bullets carve stories of all untold
Straight of the fear freeway, a change in the side
highway
Exit where 187 homicide hill, where I stay
Where you can die today
Kids play summer, potential killer on the other side of
town
I know some niggas that live in pity place
In the middle of nickel play city,
In the greediest state
Their religion is criticism, sorryâ€™s a word never heard
Moneyâ€™s made from every bird
So many people that can see your pain
Living next door to jealousy and dead dreams
It always rains

[Chorus]

Iâ€™ve been waiting on 4 leaf clover, yeah, yeah
But I see the odds are clearly falling, dreams are fade
away, yeah
Try pressing on a start thatâ€™s over, oh yeah, yeah
But the sky is drawn and leaves are frozen
Life is cold and grey yeah

40 first, guy broke, mo chanel, mother destiny, orange
aile, 183, double d
Seminary, flatbush, discane, fulton street, 55, lane
street, cross lake
Iâ€™m from a freshen avenue, my cornerâ€™s the murder
capital
Prison city America 666
My building is built with thick brick, broken family
district
Where every Friday night around 2 am shit get thick
Peace ripped up like bisquit
Promethezene maple syrup, and the child lullabies the
lyrics
That donâ€™t stop get it
Keep bopping the drama, donâ€™t be stopping

Cause the heart of the problem is economic from the
projects of suburbia
You can't escape it, the home invasion will murder ya
Not brothers with bandanas in a convertibles
But men in black suits with badges that ran federal
Wanted dead or alive homie, they way ahead of you

[Chorus]

I've been waiting on 4 leaf clover, yeah, yeah
But I see the odds are clearly falling, dreams are fade
away, yeah
Try pressing on a start that's over, oh yeah, yeah
But the sky is drawn and leaves are frozen
Life is cold and grey yeah

Genocide, genocide, genocide highway
Genocide, genocide, genocide highway
