Peace, how you? I ain't mean to be late  
It was my night to watch my little girl  
It's chilly out here  
What happened, you cryin'?  
You all got into it again, huh  
See you gotta let them know  
From the jump, I don't care who they are  
Or who they with

Yeah, I know they know we talking  
Why don't they just leave us alone?  
I know it's hard for them to understand  
People like us can love each other  
Come on, stop cryin' now  
Oh, there's somethin' I gotta tell you  
I heard they watchin' you, yeah they watching you  
They watchin' me too

But there ain't no reason to get low  
I'm proud, I'm here  
You know, I'm a stand up for you  
No matter what, and I know you'll stand up for me  
I don't have no doubts about you being true to me  
The world is ours, but right now it feels  
Like the whole world is against us  
So study, be strong, don't cry no more
