[Nas]

Girl, can I get your name and number?  
Can I relieve the pain you're under?  
Change into comfort, uh, get inside your brain  
You never cry a-gain, as long as we remain  
Doing the little things you love (you love)  
Even if I'm a dangerous thug  
All the names I'm call, but it keeps you excited  
To creep through and ride with a live rich Don  
Who was raised in the projects, can I just watch you?  
Yeah, lemme see you break it down, I gotchu  
Any town we pop, boo  
I +Get Around+ like Digital Underground and 'Pac do

[Bobby Valentino - Chorus]

Slow down, I just wanna get to know you  
But don't turn around 'cause that pretty round thing  
Looks good to me  
Slow down, never seen anything so lovely  
Now turn around and bless me with, your beauty, cutie

I saw you walking, down on Melrose  
You looked like an angel  
Straight out of heaven, girl  
I was blown away by, your sexiness  
All I have to do is catch up to you

[Chorus]

Slow down, I just wanna get to know you  
But don't turn around 'cause that pretty round thing  
Looks good to me  
Slow down, never seen anything so lovely  
Now turn around and bless me with, your beauty, cutie

A butterfly tattoo, right above your naval  
Your belly button's pierced too, just like I like it girl  
Come take a walk with me, you'll be impressed by  
The game that I kick to you  
It's over and for reeeeeaal

Like a flower fully bloomed in the summertime, you're  
ready

To be watered by this conversation, you're ready  
I'm in awe cause you shine like the sun  
Let me be the one to enjoy you  
Let's kick it girl

[Chorus]

Slow down, I just wanna get to know you  
But don't turn around 'cause that pretty round thing  
Looks good to me  
Slow down, never seen anything so lovely  
Now turn around and bless me with, your beauty, cutie

[Bridge]

Ooooh baby, you know by now that I want you BAD  
I'm floating on thin air I can't come DOWN  
Cupid, hit me already DAMN  
Now, I can't leave till seven digits are in my hand, MY  
HAND

[Nas]

Are you tired of the same things? Same drama?  
Same guys with the same game? Bad karma?  
If I take you away from the man that you wit (uh)  
I just wanna borrow you, kiss every part of you  
Can you be a fresh girl? Nasty  
Do anything I'll request, girl? Then prove it  
And you need somebody to talk to  
About things, it's Prada, if you want to  
Told you Nas'll come through, I bet, c'mon

[Chorus and ad-libs]
