[Dr. Benjamin Muhammad]  
Its much more than a March  
It will be the beginin of a movement  
Millions more movement; let us begin

Tell us what you hear!

[Nas]  
Dear people of the globe  
I hoped you in good health  
By the time my voice hit you  
I hope in all wells wit you  
My mission is to bail wit you  
Touch upon some real issues  
Senators, Government Officials  
Sit at the conference and listen  
Have a Coke and a Mineral water  
And say reminisce, George L. Jackson  
Malcolm X last win when I'm rappin  
Americans, Africans, Asians, Russians, and Arab men  
Send your clergymen to journey wit Nas from Queens  
projects  
I promise unforgettable experience  
compare me wit, Imhotep get M.O. Dep  
History was stolen, get in my zone  
what makes the power that beef? less gangsta then Al  
Campone  
Rosetta stone was stolen like Chicago was  
Think I'm a thug?, lets talk about some conquerors  
Napoleon, Sun Tzu, Genghis Khan  
Hitler, Edi Amin, I'm the tale of the hunt  
Let's bring back to the cat that invented the gun  
From the Indians all the way to the Pentagon  
I'm sittin on Capitol Hill  
I'm composin this rhyme, guarantee to make all of y'all  
feel  
The beauty that was trapped under siege  
Believe in yourself you'll be free, take it from me

[Voice Samples]

We will not surrender or we will not back down

We keep overactin  
Throw a fist for black power  
Tell us what you hear  
Why do we March? to protest Government policy  
We March because the time to fight back  
We March for education  
Throw a fist for black power  
Tell us what you hear  
Why do we March? We March to save the soul of  
America

[Nas]

The rejection of what's right could mean you in denial  
It either breaks you or makes you becomes hostile  
I swallow many lives before tastin the truth  
In the beginin there was darkness, beautiful you  
How will life be without night?, no tranquility?  
No way to get away and rest no stability?  
I can't see the sky without the moon and the stars  
The sunlight; blockin everythin the King I'm involved  
People worship the Madonna in the shrines in Spains  
I'm proud to share the same blood type in veins  
The holy mother...the loneliest color remains  
Can't be tamperin, die loot the chains  
They try make you not want it, make you run from it  
The wickest men, want the ebony punish  
It's so seductive it's sensuous in my clutches  
Hot as fire when Moses saw burnin bushes  
So abused and misused and mistreated  
Makin men wanna get drunk and get weed it  
People wild when she comes out pull out and party  
Catch her body, fornicate some start beef  
Chain reaction cuz it's in the air  
The lost tribe scattered everywhere  
From the North thru West Hemisphere  
Scientist and Archaeologist conceal the obvious  
The dead, livin and little children over time of this  
Obsession coursing, every essence of magnetism every  
organism when it come to it  
All question 'bout Resurrection and your connection  
with God  
It's answered wit the beast in your heart

[Voice Samples]

We will not surrender or we will not back down  
We keep overactin  
Throw a fist for black power  
Tell us what you hear  
Why do we March? to protest Government policy  
We March because the time to fight back  
We March for education

Throw a fist for black power  
Tell us what you hear  
Why do we March? We March to save the soul of  
America
