I saw the palace and I met some king
See I'm a follower of many things
And when then told us about
Human beings you know I had to
See

And so I jumped into my stellar ride
Broke through the atmosphere until I arrived but now
I'd
Like to go home
Let me go home
Let me go home
Again

I thought that maybe I could do some good
Clean up this planet maybe
If I could
Inform the ignorant
And give them back their pride
But simple people are always afraid
Of something they can't understand and radical
change and so
Let me go home
Let me go home
Let me go home
Again

My teachers told me that the Universe had no use for
the Earth
And maybe someday when they get some time they
gonna tear it down
'Cause we could use the dirt

I saw the palace and I met some king
See I'm a follower of many things
And when then told us about
Human beings you know I had to
See for myself momma
But now I think it's time that I got back
My dad would kill me if he knew where I was at so
Let me go home

Let me go home
Let me go
Home
Let me go
