I sleep in a pyramid
And I visit a shrink
A bum in a cave
Said he thought I could think
I eat what I am
And I'm not overdressed
I can't understand
Why I'm sometimes depressed
Chorus:
Lighten up McGraw
You're efforts of lead
All those words in your head
Lighten up McGraw
You're a helium brain
Jog a mile in the rain
Best of luck
Come again
My lady does yoga
My lady does me
And I do my lady
Whenever I'm free
I covered my bases
I checked everything once
I haven't giggled
In thirty-five months

Chorus
