Going downtown tonight
I got the paycheck cashed and my buddies and me are
on fire
Start the weekend off right
I got my car jacked up and the boys are in the back
gettin' higher
Oh, we're gonna kick it up, get it for you tonight
Watch out for the working boys
Watch out for the working boys
"Workin' so hard brings us down so we get crazy
when the weekend comes around."
Yes we're going downtown
They might throw us out but they're never gonna slow
us down
Tell all your friends to hang around
We're gonna give 'em a show
We're gonna let 'em know we're in town
"We've got dirty nails, we got greasy hair
we don't look for trouble, but it sure as hell doesn't
scare us."

Watch out for the working boys
Watch out for the working boys
"We work so hard all week long, you better watch it
when the weekend comes cause we get crazy when the
weekend comes, you better watch us when the
weekend
comes around."
